MESSAGE

In order to help students cope with the challenges of the knowledge-based society, the Bihar government has made education a top priority. The guiding principle of education is to nurture and help fulfill the dreams and ambitions of every student so that they can contribute to the betterment of society.

Welcome to the Student Handbook 2014-2015. The role of the Department of Education is to ensure that every student in Bihar has access to high-quality education that prepares them for their journey of lifelong learning and participation in an equitable and democratic society.

The Student Handbook 2014-2015 provides students, parents, and educators in Bihar with invaluable information and resources to support learning and active, responsible citizenship.

I laud the indefatigable efforts of College 2 Campus to increase awareness of and access to educational opportunities and I am confident that the Student Handbook 2014-2015 will prove to be an essential tool for every student in our state.

Message

It has always been my unyielding conviction and belief that education is, by far, the most important engine to bring about social, economic, and technological upliftment that our country possesses. As the founder of Super 30, an educational program whose aim is to show that world-class students can be produced even from areas of extreme social and economic disadvantage, I am completely cognizant of the myriad challenges and complexities that students face.

It is in this context that I would like to introduce the Student Handbook 2014-2015. This handbook provides a complete and comprehensive resource bank that students and parents can use as a guide to navigate through the Indian educational landscape. It contains all the necessary information to assist you in making informed decisions regarding arguably the most important choice in your life: your education.

I would also like to applaud the effort, dedication, and perseverance shown by College 2 Campus in transforming what started out as just an idea into the handbook that you hold today. I truly believe that this handbook will be seen as indispensable for the students of our state, both now and in the future.

Anand Kumar
Founder Chairman
Super 30, Patna (Bihar)

सारा आकाश आपका

स मय बदल रहा था. तसवीर बदल रही थी. मुझे याद है सन् 2001 का मुंबई प्रवास. जहां कहीं पूछा जाता कि मैं कहां से हूँ? बिना समय गंवाये कहता- 'झारखंड से.' कोशिश रहती कि बोल-चाल से लेकर किसी भी तरह से यह नहीं लगे कि 'मैं बिहारी हूँ.' न सिर्फ मुंबई बल्कि देश के अन्य महानगरों-शहरों में भी बिहारी होने की पहचान छुपाने के कई मामले हैं. क्यों? यह बताना शायद ही जरूरी हो. हां, यह बताना जरूरी है कि आज वह बात नहीं रही.

बिहार के सिवान जिले में पैतृक गांव-घर है. तीन पीढ़ियों से धनबाद में रहना हो रहा है. तब धनबाद अविभाजित बिहार का जिला था. दादाजी बीती सदी के 40 के दशक में धनबाद आ गये. निजी कोयला खदान में मैनेजर थे. पिताजी धनबाद में पैदा हुए. मैं भी. धनबाद में पला-बढ़ा. शिक्षा-दीक्षा हुई. बावजूद इसके सारे रिश्तेदार, संबंधी बिहार में रहते हैं. सिवान के पैतृक गांव-घर, गोपालगंज स्थित नाना के गांव से गहरा रिश्ता रहा है. ऐसे में खुद के बिहारी होने की पहचान छुपाना खासा पीड़ादायक रहा.

बिहारी होने की पहचान छुपाने और फिर बिहारी होने पर गर्व करने की स्थिति बनने जैसे अनुभवों से गुजरते हुए सिर्फ यह कहना चाहूंगा कि किसी भी राष्ट्र, राज्य, समाज की तरह बिहार का भविष्य भी आज के यूथ व स्टूडेंट्स के हाथ में है. सामंती और जातीय पूर्वाग्रहों से ग्रस्त 'बिहारी मानस' की पहचान को तोड़ने की क्षमता बिहार के यूथ व स्टूडेंट्स में है. कास्ट, क्रिमिनल और करेंसी की पॉलिटिक्स से इतर नयी इबारत गढ़नी है.

गुरु तुल्य प्रभात खबर के प्रधान संपादक हरिवंश जी और बड़े भाई स्वयंप्रकाश की प्रेरणा व प्रोत्साहन से वर्ष 2008 में कोलकाता के बिहारी व्यवसायियों के बीच काम किया. कैसे बिहार के पैतृक गांव-घर से चंद पैसे लेकर आये लोगों ने अपनी मेहनत से अपनी किस्मत गढ़ी... फिर 2009 में बिहार के विभिन्न हिस्सों में जाना हुआ. बुद्ध की ज्ञानभूमि गया से लेकर गांधी के सत्याग्रह की प्रयोगभूमि चंपारण तक अलग-अलग चेहरों, अलग-अलग भाषाओं के बावजूद भाव में, विचार में आश्चर्यजनक समानता के दर्शन हुए. सृजन की गतिशीलता से बेआबरू हो चुके ध्वंस राग दिखे. राहत और उम्मीद तो बिहार के हर इलाके में मौजूद है. जो बिहार मैंने देखा, उसमें "कुछ हो जाई बिहार नहीं सुधरी" जैसे चर्चित भोजपुरी गीत महत्व खोते दिखे.

दुर्भाग्यपूर्ण अतीत अब काल कोठरी में कैद है. ध्वंस राग दम तोड़ चुका है. सृजन की गतिशीलता का दौर है. इस दौर को स्वर्णिम बनाने की कमान बिहार के यूथ व स्टूडेंट्स के हाथों में है. वैसे भी बिहार के यूथ व स्टूडेंट्स की प्रतिभा का लोहा पूरा देश मानता रहा है. शायद ही राष्ट्रीय स्तर की कोई प्रतियोगिता परीक्षा रही हो, जहां बिहार स्टूडेंट्स ने अपनी कामयाबी का पताका नहीं फहराया हो. याद रखें-कुछ कर गुजरने की दिलेरी और जुनून ही अंततः हार-जीत का फैसला कराता है. इतिहास गवाह है कि कामयाबी हमेशा दिलेरी के नाम ही लिखी जाती है.

अंततः कॉलेज-टू-कैंपस के इस विशेष व अपने तरीके के अनुष्ठे आयोजन के लिए सत्यप्रकाश समेत पूरी टीम को अनंत-अशेष शुभकामनाएं.

I feel overwhelmed in sending my good wishes to the students of the state of Bihar. The state of Bihar which was the hub of education during early period of India is producing brilliant minds in present time also. The state has vast potential for educational growth. The students of the state are known for their hard work. The need of the time is to provide students' community a right guidance and disseminate correct information so that they can channelize and utilize their potentials.

The effort of College 2 Campus in guiding students and disseminating educational information is commendable. I am confident that the Student Handbook 2014-15 will prove very fruitful to the students of the State.

I congratulate the Handbook in its sincerely efforts as a mentor and guide of the students and send my good wishes to the students of the State in their endeavours.

Dr. P.C. Jain

INDIAN SCHOOL OF MINES

(Dhanbad, Jharkhand)

The demographic advantage that we so often talk about with reference to India is all about the youth which comprises an overwhelmingly large population of India. This segment undoubtedly has tremendous potential. It is about youth that Tagore has once said "age considers, youth ventures". Naturally, this venturing youth needs to be given a direction and enabled to give India the competitive advantage. Skilling them is the answer and all attempts are being made towards this but there is yet another important aspect that we are neglecting while trying to impart hard skills to the young people. And that aspect is the soft skill dimension. It is not only the Indian youth but the youth all over the world that needs to be trained in soft skills.

In urban India, this class is the most vibrant section of the society that gives life to it and make things happen, or alternately, not happen. This section today is experiencing some kind of a paradox - a psychologically unstable mind set. It is reticent, it is restive. It is withdrawn and it is aggressive. It is quiet, it is vocal. This is the iPod generation-insecure, pressured, over taxed and debt prone, and is not satisfied with the ways of the world. It wants a rapid change, demanding a state of affairs that may be somewhat utopian - a just, equal and humane economy. The so called recession that keeps on appearing at a nagging frequency is the apparent reason for this kind of a situation. There are two questions then that need to be answered. Is this the real reason? And is there a solution? Coming to the first question. For the large majority who are economically inclined the answer is yes. But for such people the answer to the second question is a big No. It needs to be understood that the so called recession though seemingly an economic problem is basically rooted in Psychology, that is greed and fear.

Coming back to the original issue of young people being under pressure. Why are they so? There are two fundamental reasons. First, they are in hurry that is they want things very fast - too much, too soon. It is the prevalent culture today- speed. But they forget that speed kills. The second reason is that they want so many things at the same time. Or rather they do not know what they want. The result is that they want to have the cake and eat it also. In the process, the life has become too complicated, like a vortex- of demands, desires, needs and speed that sucks them to nothingness. The outcome is depression, anxiety, frustration and aggression leading to a negative world view - I am not ok, you are not ok. Things that are happening as a result of this are really alarming. According to the World Health Organization, India ranks second in the number of people committing suicide. Even more interesting is the fact that a large number of those committing suicide belong to this so called Young People group which has still a long way ahead and is not living in penury. Thus, the reasons are not economic.

“The equation is simple: Education is the most basic insurance against poverty. Education represents opportunity. At all ages, it empowers people with the knowledge, skills and confidence they need to shape a better future.”
-Irina Bokova, Director-General, UNESCO

Dear Students,

A person can achieve whatever he desires, if he has a clear understanding of reality, his goal and purpose in life. Look at Sachin Tendulkar, a legend of the cricket world, who has become the youngest person to be awarded with the highest civilian honour, Bharat Ratna through his single-track focus and unflinching commitment to his work. Following Sachin's golden rule, you can also achieve whatever you want. With a clear understanding of one's goal, one can achieve everything. Achieving your goal depends on the series of mini-goals. Technical colleges like ours give a strong platform to the young talents like you to set the mini-goals and eventually realise your dream goal. Young talents are hankering for getting quality technical education. And it's a matter of collective will of the students like you and leading leaders like us to make this happen.

During the last decade, we have experienced substantial growth in total technical and professional college enrolment. In order to improve the relevance of the technical and professional courses we have embarked on an overhaul of teaching and learning processes by introducing or expanding the use of ICT in the classroom, strengthening technical and professional education, and focusing on the teaching of a wide range of cognitive, social and working skills to develop the capacity for entrepreneur skill. We have sincerely attempted to nurture this dream over these years and today we are one of the leading groups of Institutions established over the decades. The group consists of institutions in Allahabad and Greater Noida offering professional education in diversified areas. We have created an infrastructure to provide best facilities to the learners and trainers for effective learning.

We are always open to adapting latest technologies and upgrading our facilities. We have also laid a lot of emphasis on the intellectual capital of our Institutions and may boast of a very rich faculty strength not only in terms of numbers but also quality. We aspire to assert the significance of high quality education by producing competent professionals who can shape the destiny of our nation into a stronger and developed stature. The values, instilled among students while imparting education, will strengthen the moral and ethical fabric of the nation and revive the human spirit. The zeal of competitiveness will always be positive and setbacks will only be catalysts for greater achievements. With these beliefs, the United Group will strive to nurture the tomorrow, towards faster evolution, and will make its marks on the global academic map.

Education empowers an individual to make the right choices, which, in turn, leads to success, happiness and satisfaction.

As an educationist, I believe in empowering students to choose and create a life they want to live and hence making society better for all. Right education at the right time can make a student achieve anything they want to.

Narayana's courses have been re-designed to suit the changing times, temperament of students and needs of the gripping syllabus.

Our courses cater to all the needs of the aspirants to help them to excel in various competitive as well as Board examinations. Innovative strategies and techniques adopted in our centers, keep our students abreast of the ever-changing pattern of top level Engineering/Medical Entrance Exams. As a result, Narayana's time-tested learning formulae have percolated to far-flung areas of India to benefit students from all backgrounds.

“Our goal is to empower you to fulfill your dreams”. Today we rededicate more than three decades of our success to help enrich and realize your dreams. I wish all our students a bright and prosperous future.

Our Teachers: The Real Torchbearers

The teachers at Narayana Group are its real assets. They are specialists in their subjects and many of them are authors of well-known text books too. Being the torchbearers, they feel that success is not the exclusive domain of a chosen few. In fact, every student has the potential to succeed, and this has to be brought to the fore through the sustained hard work of the student with appropriate guidance. The magnificence of a pearl can only be appreciated when it

has been prized out of the oyster and polished to perfection. Our students are excelling largely due to NARAYANA's unique teaching methodology, commitment and dedication of our faculty. Regular workshops are also held for the teachers to ensure that their teaching methods and subject knowledge are always up to the mark. Constant updating is required in view of the highly competitive environment and ever changing pattern of JEE that the students have to face.

Educationally Yours,

Rohit Ranjan
Director

Narayana IIT Academy
